LAB ESSENTIALS FOR LIFE SCIENCES

MOLECULAR BIOLOGY

GENOMICS

MICROBIOLOGY

PROTEOMICS

BIOCHEMISTRY

PHARMACOLOGY

pH Meters

- Accurately measure pH of samples in biology or chemistry labs
- Quick and easy calibration of electrodes

Vortex Mixers

- Fast and efficient mixing of biological samples
- Accommodates common size tubes, plates or flasks

Homogenizers

- Automated cell lyser and plant & animal tissue homogenizer
- For sample prep in tubes, microplates or deep-well plates

Centrifuges

- High-speed micro and general-purpose models
- Suitable for molecular biology or cell culture sample separation applications

Hotplates / Stirrers

- Accurate stirring and heat control
- Ideal for preparing buffer solutions and general mixing

Incubating & Incubating Cooling Shakers

- Precise control of temperature environment
- Keeps samples safe during cell culture applications

Open Air Shakers

- Space saving designs are compatible to shake virtually any labware product
- Orbital, Rocking, Waving or Reciprocating motions

Semi-Micro & Analytical Balances

- High accuracy and high resolution balances designed to measure very small samples
- Readabilities of 0.1mg and 0.01 mg with capacities up to 320g

Precision Balances

- High precision lab balances for routine mass measurements
- Readabilities of 0.001g to 0.1g, capacities up to 35kg

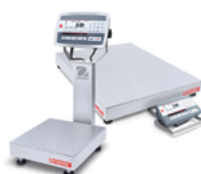

Portable Balances

- Easily moved battery operated precision balances for use in the lab or in the field
- Fast stabilization time for increased productivity

Moisture Analyzers

- Quickly determine moisture content in a wide variety of solids, solutions, colloids, and suspensions
- Effective for samples with 0.01% to 100% moisture content

Bench Scales

- Fast, accurate, and durable scales perfect for production ramp-up
- IP68/IP69K washdown models available

OHAUS®

LAB ESSENTIALS FOR LIFE SCIENCES

OHAUS products throughout the lab

OHAUS lab instruments and equipment help you move effortlessly, and with confidence, through your daily workflow.

Locate the OHAUS products in this Life Science laboratory workflow.

Laboratory Instruments

OHAUS lab balances, moisture analyzers, and pH meters provide fast and accurate measurements of your sample every time.

Laboratory Equipment

From centrifuges and shakers to hot plate stirrers and incubators, OHAUS laboratory equipment performs sample preparations with efficiency.
